DETAILED ACTION

The finality of the previous Office action has been withdrawn and the amendment filed on May 20, 2003 has been entered.

Claims 9-17 are pending and claimed on merits.

The rejection of record (ALL) is withdrawn in view of applicant's arguments in appeal's brief.

NEW GROUNDS OF REJECTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 9-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. **This is new matter rejection.** The Office is unable to find the support for the limitation in claims 9-11 "provided that where R⁹ and R²⁸ are Ser, R²⁹ is other than Arg or Har" in the specification as originally filed. The dependent claims are also rejected because they depend on the rejected claims.

Should the limitation be removed from the claims to obviate the new matter rejection, the 102 (b) rejection in Paper No. 13 as being anticipated by WO 95/16707 (a copy provided to applicant with the Office action, Paper No. 13) would be reinstated.

Conclusion

No claim is allowed.
